CAROLINA CARO

THE UNLEARNING ADVANTAGE®

Unlearn yesterday's success and outdated patterns because the future demands something different to unlock what's possible next.

In times of uncertainty, the instinct is often to add more strategies to already full plates. Yet that often contributes to overwhelm rather than effectiveness. The real leverage point is exploring what's getting in the way.

After years of coaching C-suite executives and leadership teams, Carolina discovered that what limits leadership is the continued reliance on identity patterns that no longer fit the demands leaders face today.

A former research scientist who held leadership roles at Merck and Pfizer before training as an actor, Carolina brings a diverse background to her work. She has lived the reinvention she now helps leaders navigate.

As CEO of Conscious Leadership Partners, Carolina leads a team that supports organizations with their leadership development and culture change efforts.

> **Carolina has spoken at several of our conferences**. We enjoy working with her and the audience always walks away with a great learning experience.
